

Veterans Treatment Court Peer Mentors

Serving veterans involved in the criminal justice system

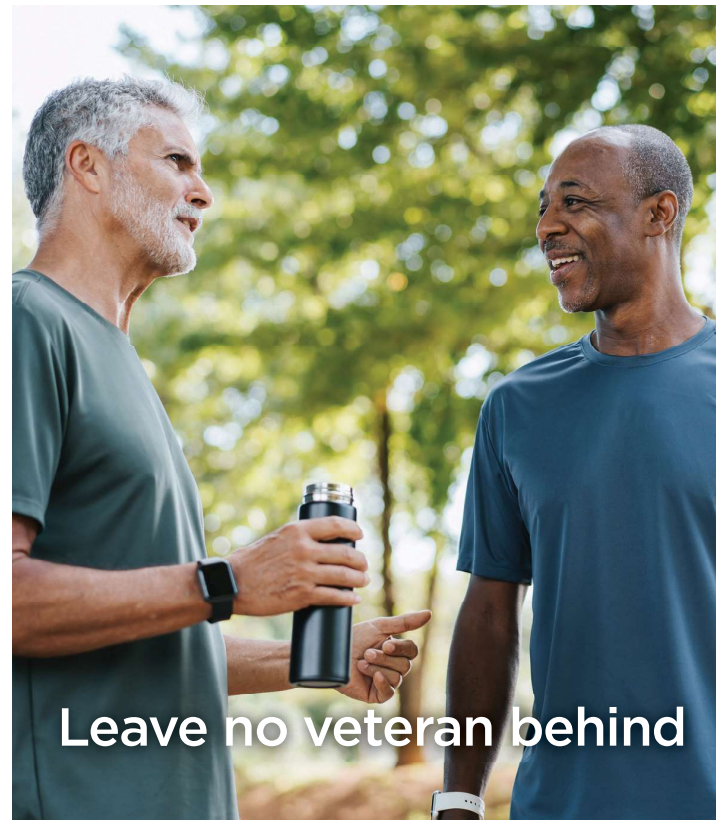

Veterans Services

Dakota County is actively seeking Veteran Peer Mentors to support the First Judicial District Veterans Treatment Court.

Veterans Treatment Court (VTC) provides a treatment option to veterans who are engaged in the justice system in lieu of serving time in jail. VTC participants must complete a rigorous year-long commitment by fully participating in a court-ordered treatment program. Each participant is assigned a Peer Mentor to support them as they advance through the court.

Mentors are an integral component to VTC as their mission is to engage, empower and encourage veteran participants to their full potential. They offer personal connection to enhance a veteran's success within the court. Mentors are required to be veterans and willing to commit to volunteering for a minimum of 12 months with about 4-6 hours of time commitment per month.

Leave no veteran behind
